PROJECTS

CONNECT AND EXPLORE

REACTJS | SPRING BOOT | MYSQL

A web application which allow users to join nearby events or create one. The events include carpooling, sports and concerts that may be going on nearby.

Checkout code [frontend](#) and [backend](#) on GitHub.

LIVE WEATHER APP

REACT.JS API BASED PROJECT

A simple weather app using open weather api where you can search by city and get live results of weather condition and temps.

Checkout [live project](#) and code on [GitHub](#) built from scratch.

EMPLOYEE MANAGEMENT

| REACT.JS | EXPRESS.JS | MYSQL PROJECT

A basic employee management app where the HR of a company can add, show, update and delete an employee i.e. basically a crud application using mysql as database.

Checkout code on [GitHub](#).

ABOUT

I am a fresher learning web development. Having made several projects during my training I am confident that I am ready for opportunities and hence seeking any entry level position.
